

Message and invitation from Jim Medicine Tree, Cherokee and Wisdom Keeper.

Jim is in Germany right now and received the following message at a pipe ceremony on March 15. Due to my request to invite all pipe cheaper in his environment to pray for peace, I receive his lines with the words:

„Hello Dirk, Will do. Here is what came to me at Barbera's today in Ammerss. Your timing is perfect! Blue sky, Jim“

His call:

„A special invitation to participate this weekend, inspired by our higher source/power, in preventing World War 3. Yes, it is possible. Every culture on this planet has a way to connect and co-create a peaceful existence through prayer, ceremony, meditation, etc. Find the way that is your own personal power and join in. It has been proven that when many join together in a common though expression, we can have a measurable effect on human situations. I will explain this in detail below, but first, the specific invitation.

Sometime during the days of March 18th, 19th, and 20th, corporate expression for the Spirit of Peace will be projected out into the reality of this physical world. Join in with us by whatever way fits you at a time that is appropriate for you and your life situation. I will be joined in this effort by at least 150 care takers of the Native American Sacred Pipe from all over the world. Won't you add your expression of your gift of power from your chosen path? It will make a difference.

The specifics and inspiration.

On the 18th there will be special ceremony from groups of women conducting the Womans Water Song ceremony in many parts of the world. On the 19th there will be Sweat Lodge ceremonies in many places around the world. On the 20th globally there will be ceremonies and celebration of the Spring Equinox. Add your expression with us. What inspired this? Today, March 15th, I woke up in Germany. Of course, there is much talk about the situation and war in Europe. As I looked outside, I noticed that many of the local birds were acting unusually and I heard that this spring time there had been no rain from the day the conflict had started three weeks ago. This was unusual for this time of year here. I felt that it was as if nature was calling for a Thunder Pipe ceremony to co-create nurturing rain for the area. I

asked the Sacred Pipe holder here to do the ceremony with me down by the lake. She agreed and about 10 am we walked down to the shoreline to hold the ceremony.

As she sent up the sacred smoke with the prayers and requests for rain, I received a strong message that there was going to be some unusual changes in the weather and to watch for it.

We finished the ceremony and walked back to her place to warm up with some hot coffee and just as we got there, it began to rain. That was not unusual, so we sat with our coffee and discussed the ceremony.

In a little while the air all around the house actually turned yellow. Like the air was filled with a thick color that also darkened the sun. It looked like it was dusk in the middle of the day. Then there was the most unusual thunder I have ever heard. Long low rumbling thunder that lasted for several minutes at a time.

The rain increased and lasted quite a while, falling in a gentil, nourishing way. It is what we call a "Female rain." My dear friend and host, Barbara, googled how the yellow air could be caused and found the we were receiving a dust storm from the Sahara Desert, 3,025 km away! (It is one its way across the Atlantic heading for the USA.)

We continued to watch this unusual experience and the inspiration to call on a worldwide ceremony to co-create an expression of the spirit of world peace began to unfold. We were instructed to not desire results for one side of conflict or the other, and there are so many new/old conflicts flaring up around the world right now. The answer to the world situation will not be military, not political, but a shift in the human situation and perspective of what is truly import to all of us. So, will you join us in sending out the energy of our thoughts in a meaningful way sometime in these upcoming days? We are in a special time predicted from over one thousand years ago by the Hopi Nation in Arizona, USA, called the time of purification.

Review of the year 1994

"Indeed, four years earlier, at a Hotevilla (Hopi) meeting that was full of conflict between the "Progressives" and the Traditionals, at the beginning of the meeting, the prophet begun to sing. All present became panicked and urged him to stop singing. It was the long-awaited Purification Song that called upon the Higher Forces, and is meant to be sung only once. "Stop singing, it is not time yet. Stop, Stop, Stop!" But he didn't heed, and he kept on until he was half way through the song. Suddenly he stopped. On August 27th, 1994 at the

full moon, the Purification Song was sung in completion. At almost the same time the prophesied White Buffalo was born.”

We are almost through the time of purification when we have the ability to co-create a world of peace and prosperity, equally for all. This needs to be done now.

“THE TIME OF PURIFICATION.

The final stage, called the Time of Purification, is described as the hatching of a “mystery egg” in which the forces of the creation and create a time symbolized by the color red, culminating in either total rebirth or total annihilation -- we don’t yet know which, but the choice is ours. War and natural catastrophe may be involved. The degree of violence will be determined by the degree of inequity caused among the peoples of the world and in the balance of nature. In this crisis, rich and poor will be forced to struggle as equals to survive.

Remember, we have the ability to have an effect of how this all plays out.“
